

READY RECKONERS

THE FOREST KNOWLEDGE WITHOUT THE FORESTRY DEGREE

Meeting ILPA due-diligence requirements can place real pressure on internal teams. **Our Ready Reckoners offer a practical way to save up to 3 hours on each uncertified product risk assessment**

THE DETAILS

There are **three Ready Reckoners** to help you address most of the major risks that must be considered for uncertified products:

- 01 Illegal Logging and Forest Governance Risks**
- 02 Armed Conflict and Corruption Perception Risks**
- 03 Species and Conservation Status Risks**

Referencing all third-party online resources provided for guidance by DAFF, the Ready Reckoners cover 23 different harvest countries and 16 species groups.

They are designed to:

- Help identify potential issues with supplier claims of country or area of harvest and/or species.
- Quickly substantiate lower-risk sources and species.
- Identify higher-risk sources and species and get to risk mitigation actions faster.
- Include pre-drafted answers to many mandatory considerations.
- Provide timestamped downloads for record keeping.

Your 12-month subscription gives you access to all three Ready Reckoners and includes any improvements and updates.

\$2,399 p/a (ex GST)*

HOW IT WORKS

NOTE: The example screenshots below are provided as a demonstration only.

1. Select the country or species tab

Argentina	Brazil	Canada	Chile	China	France	Germany	Indonesia	Italy	Japan	Malaysia	New Zealand	Papua New Guinea	Romania	Russia
-----------	--------	--------	-------	-------	--------	---------	-----------	-------	-------	----------	-------------	------------------	---------	--------

OR

American Oak	Birch	Durian	European Oak	Hevea - Rubberwood	Douglas Fir	Eucalyptus	Merbau	Meranti - Shorea	Masson Pine	Larch
--------------	-------	--------	--------------	--------------------	-------------	------------	--------	------------------	-------------	-------

2. Review the summary table for each mandatory consideration

ILLEGAL LOGGING AND FOREST GOVERNANCE

Summary of Illegal Logging Risk at Harvest Level What are the key risks that need to be mitigated?	Risk Level	Timber and Corruption Risk Indicators ^{1,2,3,4}	Argentina	Score System	Governance Indicators ⁵	Argentina	Score System
1. Is there much illegal logging in the area or country of harvest? Is any information about previous incidents of illegal logging relevant to the area or country of harvest? Rule 8.6 (b) (i)	Not Low	Legal Logging and Associated Trade (LAT) Risk Score - 2025	53.35	Between 0 and 100 (100 being the most risk)	Voice and Accountability	63.24	Percentile Rank
2. Are the forest management laws implemented and enforced? I.e. Is there evidence of a lack of enforcement? Rule 8.6 (b) (ii)	Not Low	Legal Logging and Associated Trade (LAT) Risk Score - 2022	64.4		Political Stability and Absence of Violence/Terrorism	41.71	
3. How does the country of harvest regulate protected areas and species? Is there an increased risk if the timber was harvested from a protected area? Rule 8.6 (b) (iii)	Not Low	Timber Risk Score	25	Between 0 and 100 (100 being the least risk)	Government Effectiveness	36.62	
		Corruption Perception Index (CPI) Rank	99	Out of 180	Regulatory Quality	35.38	
		Corruption Perception Index (CPI) Score	37	Between 0 and 100	Rule of Law	37.74	
		Index of Public Integrity (IPI)	7.01	Between 1 and 10	Control of Corruption	41.98	

3. Access detailed evidence

ARMED CONFLICT & CORRUPTION

Key Risks	Key Information
1. Are there any active or recent conflicts in place that are armed conflict?	1. Does the country of harvest have a Country Specific Guideline? What information does the CSIG provide for and have you obtained or accessed it? 8.6.9 (i)
2. Are there any active or recent conflicts in place that are armed conflict?	2. What are the governance arrangements (i.e. policies, legislation, regulations) including licensing, permitting of harvesting for forest management in the area of harvest or country? 8.6.9 (ii)
3. Are there any active or recent conflicts in place that are armed conflict?	
4. Are there any active or recent conflicts in place that are armed conflict?	
5. Are there any active or recent conflicts in place that are armed conflict?	
6. Are there any active or recent conflicts in place that are armed conflict?	
7. Are there any active or recent conflicts in place that are armed conflict?	
8. Are there any active or recent conflicts in place that are armed conflict?	
9. Are there any active or recent conflicts in place that are armed conflict?	
10. Are there any active or recent conflicts in place that are armed conflict?	

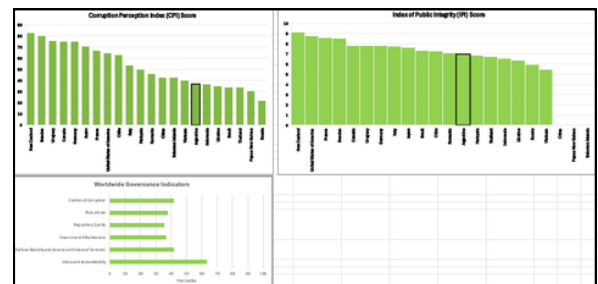

ILLEGAL LOGGING AND FOREST GOVERNANCE

Key Risks	Key Information
1. Is there much illegal logging in the area or country of harvest? Is any information about previous incidents of illegal logging relevant to the area or country of harvest? 8.6.9 (i)	1. Does the country of harvest have a Country Specific Guideline? What information does the CSIG provide for and have you obtained or accessed it? 8.6.9 (i)

What are the governance arrangements (i.e. policies, legislation, regulations) including licensing, permitting of harvesting for forest management in the area of harvest or country? 8.6.9 (ii)
3. How does the country of harvest regulate protected areas and species? Is there an increased risk if the timber was harvested from a protected area? 8.6.9 (iii)	
4. Are there any active or recent conflicts in place that are armed conflict?	
5. Are there any active or recent conflicts in place that are armed conflict?	
6. Are there any active or recent conflicts in place that are armed conflict?	
7. Are there any active or recent conflicts in place that are armed conflict?	
8. Are there any active or recent conflicts in place that are armed conflict?	
9. Are there any active or recent conflicts in place that are armed conflict?	
10. Are there any active or recent conflicts in place that are armed conflict?	

SPECIES GROUP AND CONSERVATION STATUS

Species Risk	Conservation Status
1. Are there any active or recent conflicts in place that are armed conflict?	Extinct
2. Are there any active or recent conflicts in place that are armed conflict?	Threatened
3. Are there any active or recent conflicts in place that are armed conflict?	Least Concern
4. Are there any active or recent conflicts in place that are armed conflict?	Not Evaluated
5. Are there any active or recent conflicts in place that are armed conflict?	
6. Are there any active or recent conflicts in place that are armed conflict?	
7. Are there any active or recent conflicts in place that are armed conflict?	
8. Are there any active or recent conflicts in place that are armed conflict?	
9. Are there any active or recent conflicts in place that are armed conflict?	
10. Are there any active or recent conflicts in place that are armed conflict?	

Data Visualisations

4. Transfer evidence to your risk identification and assessment worksheet

- Complete the risk identification and assessment component of your Due Diligence Process
- Identify specific risks to undertake risk mitigation actions

5. Download relevant timestamped copies for your records

6. Consider other risks such as those in your specific supply chain

*Fees payable in relation to consultancy are set individually and is dependant on the size and complexity of the business and the level of the Hikari staff member engaged to assist you. Fees and charges are subject to change with prior notice. All fees expressed are exclusive of GST.
