

ISO 45001 / AS/NZS 4801 SAFETY MANAGEMENT SYSTEMS, PRACTICAL POLICIES, DISPUTES & INVESTIGATIONS

STRONG SYSTEMS. SAFER WORKPLACES. SMARTER RISK MANAGEMENT.

We help businesses align with ISO 45001 and AS/NZS 4801 standards through legally sound, practical safety systems. From policies to audits, we deliver tailored solutions that reduce risk and support a culture of compliance.

Our Key Areas of Support

Policy and Procedure Development

We draft WHS policies and procedures that meet legal requirements and align with your operational reality. Bridging the gap between paperwork and practice.

01

Gap Analysis & Implementation Support

We assess your current systems against ISO 45001 and AS/NZS 4801 standards, then help you close compliance gaps and embed safer practices across your business.

02

Audit Readiness & Compliance Reviews

Our team prepares you for audits by reviewing documentation, identifying risks, and ensuring your systems are structured, implemented, and ready for certification.

03
